

office in a counterpart foreign application, and no document listed in this Supplemental Information Disclosure Statement was known to any individual designated in 37 C.F.R. § 1.56(c), more than three (3) months prior to the filing date of this Supplemental Information Disclosure Statement.

Copies of the listed documents are attached, excluding any U.S. Patents. Applicants' representatives understand from the Examiner that in related co-pending applications she considered references cited in the IDS Forms PTO/SB/08 filed but crossed through some of the citations and did not initial the entries to avoid the printing of the those documents on the face of any patent granted there from. In light of the Examiner's representations regarding the crossing-out of references in the related co-pending applications, Applicants will consider any entries crossed through by the Examiner in this case as having been properly submitted and considered by the Examiner unless the Examiner specifically states otherwise in the papers returning the form.

Further to the Notification of Pending Litigation filed on July 23, 2004, in this application, Applicants submit two additional documents from the on-going litigation *L'Oreal S.A., et al. v. Estee Lauder Companies Inc. et al.*, Civil Action No. 04-1660 (D.N.J.). The first document is Estee Lauder's Amended Answer and Counterclaims, dated April 21, 2005. The second document is a copy of Estee Lauder's Response to Plaintiffs' Third Set of Interrogatories (Nos. 8-13). Both of these documents are enclosed with this Information Disclosure Statement and listed on the IDS Form PTO/SB/08.

The United States Court of Appeals for the Federal Circuit held in *Dayco Products, Inc. v. Total Containment, Inc.*, 329 F.3d 1358, 66 U.S.P.Q.2d 1801 (Fed. Cir. 2003), that an "adverse decision" by another examiner may meet the materiality standard under the amended Rule 56, and thus, Applicants should disclose prior rejections of "substantially similar claim[s]" to the Office. Accordingly, although Applicants are not representing that the office actions in the co-pending applications are material to the present application and are not admitting that any of the other claims are substantially similar, out of an abundance of caution, Applicants have listed the substantive office actions filed in co-pending applications on the attached form. At the Examiner's request, Applicants have not included copies of the office actions from co-pending applications issued by the Examiner of this application.

Applicants respectfully request that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached form.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Office applies any of the documents as prior art against any claims in the application and Applicants determine that the cited documents do not constitute "prior art" under United States law, Applicants reserve the right to present to the Office the relevant facts and law regarding the appropriate status of such documents.

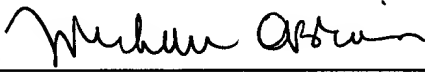

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

If there is any fee due in connection with the filing of this Statement, please charge the fee to our Deposit Account No. 06-0916.

Respectfully submitted,
